

Tador MT-88-GSM-2Line and 4Line Digital Panel

The Tador GSM Intercoms offer a fantastic solution to communicate with visitors via landline or mobile phone.

The call station will house a SIM card which once programmed will call through a list of stored numbers until answered and can then be granted entry by entering a digit on the telephone handset.

It Calls your home phone or mobile when a visitor presses the call button and if no answer, it will roll-over to call another pre-set number. Never miss a call.

Works with standard sim cards on contract or prepay.

Functions:

- Calls up to 250 numbers from a single SIM card.
- Visitors can scroll for residents, or enter apartment number to call.
- Dials up to 3 phone numbers per family on roll over.
- RFID Proximity reader built in as standard. (3,000 cards)
- 250 Access codes.
- Features an illuminated Keypad.
- Large LCD screen with 2 line or 4 line (large characters).
- Two Relay support for two different doors.
- Surface / Flush Mount / Anti-Vandal Aluminum Panel.
- Support 3G+4G.
